

Hue, May 25th 2020

To: Eyes of Compassion Relief Org. (EOCRO)
52 Evelyn Wiggins Dr.
Toronto, ON. M3J 0E8
Canada.

Dear EOCRO's benefactors.

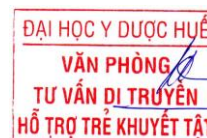

Tran Quang Minh's, heart patient, operation fee was 40,000,000 vnd. The Health Care Insurance and his family paid 30,000,000 vnd. **We received 10,000,000 vnd from EOCRO to support to Tran Quang Minh.**

Tran Quang Minh was born in 1983. Currently, he lives at 99/3 Nguyen Lo Trach Street, Hue City. He has a wife and 2 children. The oldest is 14, and the last child is 10-year-old child. Both of them are students. Previously, Minh worked as a mason to earn money to feed his wife and children. However, nearly 10 years ago, Minh almost stayed at home because of his weak health. Since then, Minh's wife has to earn a living for her family by her own. She sells vegetables at a market near her home with an income of only about 1.5 million / month. With this income, no month does she meet all the essential needs of her family. Minh's father is also 64 years old, but he still works as a mason's assistant to help the son's family. All of Minh's parents, wife, children and himself live in a small house built nearly 40 years ago so it is degraded and old. In the house, nothing is worthwhile because all the money made just to cover the minimal needs of the family. Not to mention the times of Minh went in and out of the hospital, his family had to borrow everywhere to pay the hospital fee.

After a long time living with the disease and only being treated with medicine, this time Minh was assigned to have surgery with the cost of 40 million VND. His surgery was decided very urgently when his condition was severely changed and he had internal bleeding. Despite having to borrow loans with high interest, his wife could not borrow enough money. The amount of money is missing 10 million for the surgery to be performed.

On behalf of Tran Quang Minh and his family, permit us to say thank you so much to donors of Eyes of Compassion Organization for Tran Quang Minh so that he can come back to a normal life.
