Dear EOCRO's benefactors.

Pham Trong Luan's, heart patient, operation fee was 35,000,000 vnd. The Health Care Insurance and his family paid 26,691,435 vnd. **We received 8,308,565 vnd from EOCRO to support to Pham Trong Luan.**

Luan was born in 1987, lives in Tan Trai Thuong village, Vinh Thanh commune, Vinh Linh district, Quang Tri province. Luan suffers from congenital heart disease but discovered his disease only six years ago. Since the disease was discovered, Luan could not work and earn money anymore, so he stayed at home. For that reason, only 1 year after discovering Luan's disease, her wife decided to divorce and leave her 3-year-old daughter for her husband to take care of and leave home. Currently, Luan lives with his daughter and father, who is 82 years old. Because he could not labor to make money, both Luan and his daughter relied on Luan's father to live. Despite being 82 years old, Luan's father still has to work as a hired laborer to earn money to feed three mouths. In addition, because Luan's family is the poor household and his father is older than 80, he receives a little monthly allowance from the local government. Sometimes, Luan's brothers also provide some support for the whole family to live through the day. Because he was so poor, although Luan had been ill for so long, Luan did not dare to go to the hospital for treatment. So far, Luan's heart disease is too severe, so he has to have urgent surgery at the cost of 35 million VND. Luan's father took the paper of the house to the bank to borrow 10 million dong. In addition, they do not know where to cling to Luan have enough money for surgery.

On behalf of Pham Trong Luan and his family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Pham Trong Luan so that he can come back to a normal life.
