Dear EOCRO's benefactors.

Huynh Thanh Chau's, heart patient, operation fee was 90,000,000 vnd. The Health Care Insurance and his family paid 70,000,000 vnd. **We received 20,000,000 vnd from EOCRO to support to Huynh Thanh Chau.**

Huynh Thanh Chau was born in 1985, currently lives with his family at Dong Khuong 2 Hamlet, Dien Phuong Commune, Dien Ban District, Quang Nam Province. Chau has a wife and 2 children. His first child is 14 years old and the last one is only 9 years old. Chau has suffered from heart disease since he was young so his health is very weak, almost unable to do heavy work. 13 years ago, Chau was operated once by the help of a charity. After that surgery, Chau's health was also a bit progressive. Since then, he could help his wife to work and earn money to feed their children.

Chau's wife has just worked as a farmer and a rickshaw puller. The income from farming is only enough for rice. So when someone needs to transport trees, utensils or agricultural products, Chau's wife uses a rickshaw to transport them to earn more living expenses for the family. Chau also worked as a farmer and help his wife to pull the a rickshaw to earn money when her health allowed. The couple and 2 of Chau's children now live in Chau's mother's house. She was also 60 years old but also had to work as a farmer to earn a living.

Recently, Chau's heart disease recurred. Doctors appointed Chau need surgery cost of 90 million VND. Chau and his wife borrowed money everywhere but only have about 40 million VND. Chau and his wife are looking forward to receiving the support to once again have the opportunity to live and raise 2 young children.

On behalf of Huynh Thanh Chau and his family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Huynh Thanh Chau so that he can come back to a normal life.
