Dear EOCRO's benefactors.

Le Thi Thu Thao's, heart patient, operation fee was 60,000,000 vnd. The Health Care Insurance and her family paid 40,000,000 vnd. **We received 20,000,000 vnd from EOCRO to support to Le Thi Thu Thao.**

Le Thi Thu Thao is 48 years old. Thao, her husband and daughter are living with her mother-in-law in Phu Da district, Thua Thien Hue province. Thao is a tailor. However, because of her poor health, Thao could not work as a hired laborer or apply for a job at industrial zone but could only receive sewing and repair clothes at home. Therefore, Thao's income is about 1 million VND / month. Thao's husband is a commune official with a salary of 3 million VND / month. With a total income of 4 million VND / month, the life of the whole family is difficult and sometimes not enough to cover their essential needs. The whole family now lives in the old house of Thao's parents-in-law without any valuable assets. Her mother-in-law also has a weak age, however, she also tries to help her children with household chores.

Thao has long suffered from heart disease. That's why even though her only child is 15 years old, she cannot give birth to any more children. Because life is not comfortable and has no money to save, Thao can only ignore her illness to live through the day but does not dare go to the hospital for treatment. Recently, the disease of Thao was getting worse and worse, Thao often fainted so she was taken to hospital. Here, she was appointed to have surgery as soon as possible at a cost of up to 60 million VND. Her family borrowed everywhere but still could not afford her surgery.

On behalf of Le Thi Thu Thao and her family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Le Thi Thu Thao so that she can come back to a normal life.
