Dear EOCRO's benefactors.

Nguyen Thi Hang's, heart patient, operation fee was 30,000,000 vnd. The Health Care Insurance and her family paid 15,000,000 vnd. **We received 15,000,000 vnd from EOCRO to support to Nguyen Thi Hang.**

Nguyen Thi Hang has a husband and a son who is 5 years old. The whole family currently lives in Group 7, Thuy Duong Ward, Huong Thuy Town, Thua Thien Hue Province. A year ago, Hang's family was supported by the goverment with low-interest loans for poor households to build houses. Therefore, they built a small house on the garden land of Hang's parents-in-law. There was no valuable furniture in the house. Also because of building the house, so far the family still has not paid debt in the bank, yet.

Hang is a garment worker with an average salary of 3,500,000 VND / month. However, Hang's husband does not have a stable career, so he only works as a hired laborer, so his income is only about 1,500,000 VND / month. Hang suffered from heart disease from young age. Ten years ago, Hang had a surgery but so far, heart disease has recurred. This time, Hang needed surgery at a cost of 30 million VND. Although trying hard to manage, her family can only borrow 10 million VND. They also cannot borrow more from the bank because the old debt has not been fully paid.

On behalf of Nguyen Thi Hang and her family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Nguyen Thi Hang so that she can come back to a normal life.
