Canada.

Dear EOCRO's benefactors.

Pham Viet Thang's, heart patient, operation fee was 60,000,000 vnd. The Health Care Insurance and his family paid 40,000,000 vnd. **We received 20,000,000 vnd from EOCRO to support to Pham Viet Thang.**

Thang was born in 1979 and currently lives in Phuoc Tan Commune, Nha Trang City, Khanh Hoa Province. His parents have long since died. He married and had 2 children. The first child is 10 years old and the second is 3 years old. Previously, although he and his wife were not well-off, they had enough to eat if they worked hard. Unfortunately, after giving birth to a second child, Thang's wife discovered that she had heart disease. After a period of treatment, his wife's heart disease did not improve but got worse. In March 2019, his wife passed away, leaving 2 young children to Thang to take care of alone.

Wife died, young children and unstable job, Thang fell into extremely difficult circumstances. The saved money before was not enough to cure his wife, Mr. Thang still owes a lot of money to his relatives. Alone, he struggles, not afraid of any job to earn money to raise children. However, his family's misfortune did not stop there, during a local heart disease screening, Thang was found to have the same heart disease as his wife and needed surgery as soon as possible to save his life. The cost of his surgery up to 60 million. Once again, his relatives were trying their best to collect money to help Thang. However, they only can contributed 25 million.

On behalf of Pham Viet Thang and his family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Pham Viet Thang so that he can come back to a normal life.
