Dear EOCRO's benefactors.

Huynh Thi Thuy's, heart patient, operation fee was 50,000,000 vnd. The Health Care Insurance and her family paid 41,908,921 vnd. **We received 8,091,079 vnd from EOCRO to support to Huynh Thi Thuy.**

Huynh Thi Thuy was born in 1982 and lives with her family at 5/314 Nguyen Trai Street, Hue City. Thuy has married and has 3 children. The oldest is 18 years old and the youngest is 8 years old. All 3 of Thuy's children are going to school. Her husband works as a mason with an erratic income because he does not have a job every day. Thuy herself used to work as a street vendor but for recent 5 months, since Thuy has been diagnosed with heart disease, she cannot sell anymore. Therefore, the family life become more and more difficult. The house that Thuy's family lives in is not owned by them. This house was left to her uncle's husband, who is currently living in Dong Ha. Therefore, Thuy and her husband only live on but not on any property. They also do not have any valuable furniture.

Thuy has been sick for 5 months and treated with medicine but has not progressed. So she was assigned an operation with the cost of 50 million. She and her husband gathered all their saving money and also tried to borrow everywhere to get 30 million dong. The ability was exhausted but still did not have enough money for the operation.

On behalf of Huynh Thi Thuy and her family, permit us to say thank you so much to donors of Eyes of Compassion Organization for Huynh Thi Thuy so that she can come back to a normal life.
