Dear EOCRO's benefactors.

Nguyen Van Dung's, heart patient, operation fee was 70,000,000 vnd. The Health Care Insurance and his family paid 55,274,712 vnd. **We received 14,725,288 vnd from EOCRO to support to Nguyen Van Dung.**

Nguyen Van Dung was born in 1980, currently living with his family in Tan Hoa Nam hamlet, Cat Hanh commune, Phu Cat district, Binh Dinh province. Dung has a wife and a daughter who is 10 years old. Both Dung and his wife are farmers, so their income is not much. His wife sometimes works as a hired laborer to earn a little more money to cover their needs. Besides farming jobs, Dung cannot do anything else. Dung's eyes are suffering from Glacom disease, because he has no treatment, so his eyesight is very poor. His family now lives in a small house supported by their parents since the they just married. There are no valuable furniture in their house.

Dung's heart disease has been detected for a long time but knowing that it is impossible to manage the cost of treatment, Dung can only accept to live with the disease. However, his condition became worse and worse because he did not receive proper treatment. Dung's heart has been impaired to a third degree. If he still does not have surgery, the risk of his heart being able to stop beating at any time. Recently, he often fainted, so his wife took him to Hue Central Hospital for re-examination. He was assigned to have surgery cost of 70 million vnd. Dung's wife has decided to mortgage the house for the bank to only borrowed 40 million vnd. In addition, they can not borrow anyone else because their relatives and brothers are poor and cannot help much.

On behalf of Nguyen Van Dung and his family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Nguyen Van Dung so that he can come back to a normal life.
