

Hue, November 19th 2019

To: Eyes of Compassion Relief Org. (EOCRO)
52 Evelyn Wiggins Dr.
Toronto, ON. M3J 0E8
Canada.

Dear EOCRO's benefactors.

Nguyen Thi Ut's, heart patient, operation fee was 40,000,000 vnd. The Health Care Insurance and her family paid 25,000,000 vnd. **We received 15,000,000 vnd from EOCRO to support to Nguyen Thi Ut.**

Nguyen Thi Ut, born in 1976, currently lives with her family in Hiep Hung hamlet, Binh Hai commune, Thang Binh district, Quang Nam province. Ut has married and has 2 children. Her first child is 18 years old and the last is 16 years old. Both children are going to school. The whole family is living in the small house of her parents-in-law. The house is also old and has no valuable property. Ut's husband is a fisherman, he works as hired labor for boat owners. This job is very precarious because it is not always to have job. His average income is only 4 million VND / month. This is the total income of Ut's family because she herself is only a housewife.

Ut was found suffering from heart disease 7 years ago. Since then, she did not have the strength to work as a hired employee to earn any money. She can only stay at home, taking care of her two children and cooking. In 2016, her illness worsened. She could not breathe, so she was admitted to Hue Central Hospital. At that time, she had to borrow from a bank with low-interest (the policy for poor households) to have money for surgery to repair a heart valve. However, up to now, after 3 years of surgery, her heart valve is stuck. The doctor indicated that her heart valve needed to be replaced but could not be repaired. Surgical costs this time to 40 million vnd. Because the old debt has not yet been repaid, this time she could not borrow more from the bank but had to borrow outside with high interest. However, she managed only 15 million VND.

On behalf of Nguyen Thi Ut and her family, permit us to say thank you so much to donors of Eyes of Compassion Organizaion for Nguyen Thi Ut so that she can come back to a normal life.
