Dear EOCRO's benefactors.

Phan Thi Hong Giang's, heart patient, operation fee was 25,000,000 vnd. The Health Care Insurance and her family paid 8,000,000 vnd. **We received 17,000,000 vnd from EOCRO to support to Phan Thi Hong Giang.**

Phan Thi Hong Giang, is currently living with her family in My Long village, Binh Minh commune, Binh Son district, Quang Ngai province. Giang is a 21 year old girl. Her parents are farmers. They grow rice, cassava and raise chickens. Their income is extremely low and precarious. Giang's parents have 3 children, two older children are married and live separately, only Giang stays with her parents. Giang's brothers and sisters are also farmers and laborers so their life is hard. Giang's family is living in a small house that was very old and left by her grandparents. In order to increase income, her mother opened a small shop in front of her house to sell water and a few grocery items but could not earn much because there were not many customers.

Giang is currently a student of College of Economics in Da Nang city. At the beginning of the school year 2 months ago, Giang had an traffic accident. The accident was not too serious, but Giang was still hospitalized and then diagnosed with heart disease by doctors. After 2 months of follow-up, Giang was transferred to Hue Central Hospital for heart surgery. However, the cost for her operation is 25 million VND while Giang's mother has only borrowed 3 million VND to pay for the hospital's fee. With a total income about 2 million / month of her parents, the cost of this surgery is a huge number for them.

On behalf of Phan Thi Hong Giang and her family, permit us to say thank you so much to donors of Eyes of Compassion Organization for Phan Thi Hong Giang so that she can come back to a normal life.
