Dear EOCRO's benefactors.

Ho Thi Dan's, heart patient, operation fee was 15,000,000 vnd. The Health Care Insurance and her family paid 10,403,164 vnd. **We received 4,596,836 vnd from EOCRO to support to Ho Thi Dan.**

Ho Thi Dan is a 20 years old woman. She is an ethnic minority and now living in Coi Da Hamlet, Ngan Thuy Commune, Le Thuy District, Quang Binh Province with her family. In spite of the young age, Dan has a husband and 1 child is 1 year old. Her small family now lives in an old and rickety wooden house with her parents-in-law and brother-in-law. In this house, apart from the electric fan, there is no more worthwhile property. All members of Dan's family are farmers. They work on the fields and forests to find food and fuelwood for living.

Dan has had heart disease since she was a child but because she has never been to the hospital, her condition has not been detected even though her health is weaker than others. Recently, a group of volunteered doctors came to her village to check the health of the people. Then, her heart disease was detected. Dan was advised to go to Hue Central Hospital for examination and treatment. However, her situation was so difficult that it took her family nearly 2 months to borrow enough money to go to Hue Central Hospital. After the examination, Dan was assigned a surgery at a cost of 15 million VND.

On behalf of Ho Thi Dan and her family, permit us to say thank you so much to donors of Eyes of Compassion Organization for Ho Thi Dan so that she can come back to a normal life.
