

Họ tên / name: Lương Viết Định

Ngày sinh / year of birth: 1998

In poor families, every early morning his father often carried his mother goes to sell fish to earn money in cover their life for all six members. Since mother born him, they are often going hospital for treat his yellow fever disease. Until 3 years old, he had just walk, talk a few words, but he cannot control his hygiene.

At 8 years old, she was supported scholarship to go to school. Now, Dinh can read the words, do simple subtraction and addition, he can talk sentences but unclear. He is learning to use money and calculate money to shopping.

In addition, he is learning to make incense every afternoon, this job is quite simple to him, but his legs and arms are weak than he only does a little incense sticks. He still needs to practice more to health and learned the whole process to independent work.
